WELCOME

Welcome to Labelexpo Americas 2024! We are excited to be gathering the industry back together this year at the Donald E. Stephens Convention Center. This is the 18th edition of the event, and we are so excited for you to see what we have to offer.

We have done a lot of research to make sure that we are bringing you value to Labelexpo Americas. You told us that you want to come to Labelexpo Americas for the networking, to discover new products and solutions, to inspire you, to see new equipment in person and to explore what new markets there are for you. That is why you will see some new additions to the event this year that we are really excited about.

So, what did we bring you that you didn't see at the previous edition of Labelexpo Americas?

There is more equipment on the show this year than we had in the past – new, wider flexo presses, hybrid technology like you haven't seen before and a wide range of digital label and package printing equipment.

The new area FlexPack @ Labelexpo, co-located with Labelexpo Americas 2024, will focus on the complete production chain from materials selection to print, laminating and pouch-making.

Other key trends to be seen at Labelexpo Americas 2024 include the revolution of RFID technology. At the RFID Experience, attendees will get the opportunity to learn more about the growth of RFID, see live demonstrations of how smart labels are produced as well as understand how data is stored, tracked and managed.

Attendees will be able to attend two in-depth Label Academy courses: a master class covering flexible packaging and a workshop on RFID Technology for Label Converters.

Sustainability is a key focus of Labelexpo Americas 2024. At the Eco Stage on stand number 3005, hosted by TLMI, attendees will get to see free sessions focusing on a wide range of sustainability issues for the first two days of the event.

We have two great new keynotes for you as well! The networking breakfast focusing on AI and Automation and our Converter Leadership Luncheon. Labelexpo Americas 2024 also features a one-day conference program taking place on 11 September, tackling the biggest topics affecting the label and package printing industry to date.

We also celebrate excellence by recognizing the key achievements in the label and package printing industry at the Labelexpo Americas 2024 Networking Party featuring the Label Industry Global Awards on the opening night of the event. Congratulations to all the winners and finalists!

Thank you for sharing your vision for the event. We listened carefully to your feedback, and we can't wait for you to experience all the new label and package printing possibilities we have developed.

A huge thank you to our sponsors, association and media partners, as well as our attendees, exhibitors, speakers and the entire Labelexpo Global Series team for their work in bringing this event to life.

We hope you enjoy Labelexpo Americas 2024!

WELCOME

TLMI

On behalf of the Tag and Label Manufacturers Institute (TLMI), it is my distinct pleasure to welcome you to Labelexpo Americas 2024. TLMI is proud to co-sponsor Labelexpo Americas together with our longstanding partner, Informa. This is our 29th year being an integral part of the most informative trade show in the label and packaging industry.

Labelexpo Americas promises an outstanding show offering a dynamic platform for professionals to discover, connect, and engage, enabling attendees to drive their businesses forward. We are confident that you will leave the event with a wealth of knowledge, inspiration, and new connections that will benefit your business for years to come.

Over the three days, you will have the chance to:

- **Discover Cutting-Edge Technologies:** Explore the latest advancements and solutions in label printing, converting, and finishing from leading manufacturers and suppliers worldwide.
- **Network with Industry Leaders and Experts:** Engage with peers, potential partners, and industry experts to exchange ideas and forge valuable connections.
- **Gain Valuable Insight from Educational Sessions:** Attend a variety of seminars and workshops designed to enhance your knowledge and address the challenges and opportunities facing our industry.

We are particularly excited about the Eco Stage powered by TLMI, booth 3005, where industry members and thought leaders will be addressing sustainability by sharing environmental strategies and solutions we can all integrate into our own organizations. These sessions are curated to provide you with actionable insights and practical strategies to implement in your own operations.

TLMI's values, Community, Insight, and Advocacy, is what Labelexpo Americas is all about. We invite you to stop by to say hello, meet our team, learn more about TLMI, our member benefits, and the value we provide for our members. If you need a break, feel free to stop by to relax, check your email or have a meeting at our booth any time over the course of the show. Our booth is located at the entrance to Hall A, booth 99.

Thank you for joining us at Labelexpo Americas 2024, we wish all attendees and exhibitors a successful show!

Warmest regards,

Linnea Keen

Voted the leading AI strategist and 'Top 10 influencer in AI' in 2023, Katie has over 30 years of consulting experience across a range of sectors and has advised many of the world's leading business leaders and organizations.

Katie spoke at FINAT 2024 in Athens and has worked with packaging companies such as Gallus. She has delivered two TEDx talks and is a regular speaker worldwide. Her first book, Using Artificial Intelligence in Marketing: How to Harness AI and Maintain the Competitive Edge was listed as a reference source in the 'Brand Strategy' section of the World Economic Forum's Empowering AI Leadership AI toolkit for corporate boards.

Katie is a member of the UK Government All-Party Parliamentary Group (APPG) task force for the adoption of AI. She is also an Editorial Board Member for the AI and Ethics Journal.

In 2020, she launched a school AI program in London, the Leaders of Tomorrow, to close the skills gap in education and show young people, especially girls, how STEM and AI will reshape their future careers.

CONVERTER LEADERSHIP LUNCH

Sponsored by:

MARK ANDY

PANELISTS

CRAIG CURRAN

President, Nosco

Craig Curran brings 40+ years of experience in the printing industry. His passion for innovation has been a driving force behind Nosco's success, particularly in the development of digital print and other platforms that empower the healthcare industry. In addition, he actively contributes beyond his role, holding leadership positions on several international boards and committees. Prior to joining Nosco in 2005, Curran honed his expertise across various printing industry roles.

BRUCE HANSON

CEO, AWT Labels & Packaging

Bruce has 28 years of experience in the print industry with a wide range of leadership roles. He grew up in the business right out of college and started his career selling labels and other print-related materials. He is dedicated to lifelong learning through a constant curiosity, committed to delivering value to clients, and driven to create collaborative environments for his team to thrive and become their best self at work and their home life.

GUIDO IANNONE

Chief Sales Officer and President for Mexico, South Africa and China, All4Labels

Guido Iannone brings over two decades of entrepreneurial and management experience to the packaging industry. An ardent supporter of digitalization and a forward-looking approach to business, Guido promotes a business model based on pillars such as flexibility and efficiency, but above all on solid and trustworthy relationships with stakeholders, especially customers.

ELIZABETH YERECIC

Executive Vice President, Sales & Sustainablity; Co-Owner, Yerecic Label

Elizabeth Yerecic Freedman leads Sales & Sustainability efforts at Yerecic Labels and oversees the purchasing, estimating, R&D and bill of materials departments. With a passion for product design, Elizabeth launched theSustainLabel!® product suite, introducing the first printed pressure sensitive label applied to PET to be recognized by the Association of Plastic Recycler's Preferred Design Recognition program.

MASTER CLASS

LABEL ACADEMY MASTER CLASS: FLEXIBLE PACKAGING

TUESDAY 10 SEPTEMBER

ROOM 3

Gain the necessary knowledge and expert guidance that label and other converters looking to enter or expand their production into flexible packaging are likely to require. Learn how ink components interact with drying and curing technologies, and with packaging line demands. Current legislation, including ink migration, will also be addressed. Attendees will have the opportunity to see a live demonstration of flexible packaging production in action at the Flexpack @ Labelexpo area of the show.

This 5-hour master class will be presented by leading flexible packaging experts from the fields of materials, pre-press, printing technology, inks and coatings, and flexible pack formation and filling. It is organized by the Label Academy, the global training program for the label and package printing industry.

This master class will begin at FlexPack @ Labelexpo in Hall F before continuing in the Conference Center on Level 1, Room 3.

Price: $695

LABEL ACADEMY

INKS, COATINGS AND VARNISHES

For the converter, a clear understanding of the performance characteristics, handling and storage of inks and coatings is essential in today's legislation-drive label production process.

Inks, Coatings and Varnishes sets out to explain the entire inks and coatings value chain, from ink manufacture to the chemical properties of different ink systems, how they are dried or cured, and how inks and coatings are specified for different end use performance requirements. It is an essential resource for anyone involved in the label converting market.

The chapters in this book look at:

+ Ink systems and chemistries
+ Drying and curing systems
+ Proofing and testing procedures
+ Impact of legislation
+ Surface treatment and ink adhesion

CleanSort IML

YUPO®

"RETURN TO PURE"

YUPO CleanSort is the next generation of sustainable labeling technology. CleanSort label substrates are designed to remove during the recycling process andcarry away contaminants such as inks, foils, and coatings so that the packaging materials (PP, PET, and HDPE) can be returned to pure polymer and used again.

PRODUCT LAUNCH

SUSTAINABLE
Labels are liberated during recycling process.

BRANDS
Lower cost vs PS labels, & simplifies the manufacturing process.

APR RECOGNIZED
